

Product data sheet

MagCharger (ARXX075)

Type	: Rechargeable NiMH battery 6.0V 3.5Ah	
Nominal dimensions (with sleeve)	: $\varnothing = 33.0$ mm H = 180.0 mm	
Applications	: Flashlights Maglite MagCharger, Streamlight SL20X, Serpent D	
Nominal voltage	: 6.0V	
Nominal capacity	: min : 3500 mAh typical : 3600 mAh (to 4.5V at 20°C)	
Standard charging	: min 14h (at 20°C)	
Service life	: >500 cycles (IEC 61951-1) up to 1000 cycles (not less than 60% nominal capacity at 0.1C charging / 0.2C discharging)	
Run time in MagCharger flashlight	: min : 1h50min typowo: 2h10min	
Weight	: 410g	
Temperature range	: Standard charging 0 do 45°C Discharging -20 do 60°C Storage -20 do 25°C Storage -20 do 60°C (1 week)	

 Run time for Maglite 3,5Ah rechargeable battery
with 11W bulb

Nominal capacity (for 0,2C load)

Ni-MH

**MUST BE
RECYCLED OR
DISPOSED OF
PROPERLY.**

Ni-MH

Now a days any spent battery should not be
bin improperly !
Please return old batteries to your supplier.
